Update and get- Improved physics- bug fixes, performance improvements- more challenges than you can imagine we can't wait for you to try it! You can?! The game is nice, I enjoyed it, but I opened every ball skin in the game in 2 hours for free. You need to fix the restart button, so when you restart around you lose everything you've collected in this round. You can just go for a bonus round, throw the balls and before round edges just restart the round and you keep every point you have, which is basically bug abuse that I believe is detrimental to the game? It also works with keys, get the key, restart before round edges, do it 3 times and get the box thing. Developers, you might want to look into it, except this game is very relaxing and enjoys it. Welcome! Thank you for highlighting your concerns, please don't forget to send a full support@gismart.com. However, we can resolve your issue as quickly as possible. Thanks, we'll talk to you soon! This game is a fun game. I play it a lot. But, however, after a while the rounds get repeated. I wish the rotations had changed and had new rounds. And there's a lot of extras. I have to put my phone on airplane mode so as not to get the metals and miss import calls! So please reduce the number of vouchers. Also, I almost have all the pills you can't get. I'm one star missing. I'm really with there was more bullets you could buy. One more thing about the eggs- I have over 2500 diamonds and that means I can buy the original. I press him (and I have them all) and nothing happened. So I wish you could remove it if you have all the pills and enough diamonds. However this game is fun but it can use the update. First of all it's so much fun to try knocking down all the dominoes and if you don't knock them down you can try again but it's really easy so you have to be able to go through levels. If you don't, it's okay. Secondly it is so satisfying to see the dominoes fall or drop. Third, no extras. I mean, you like toppings. No, I didn't, and it was a dream come true. I can say so much more about this game, but I don't want to waste your time that simple. Best game ever. Keep making games. Love them bye. Domino Smash is a game of luck where you have to go through the levels by dropping buildings and paintings made of dominoes. You're going to have to fire bullets at the poor dominoes like it was a pool game. Level up by dropping all the pieces the goal in this game is to drop all the pieces to reveal the painting they define, while getting your hands on all the bonuses and keys to find in each level. The trick is to aim really well so the pieces fall with only one strike, meaning you get maximum points. Difficulty in the game is advanced and you gradually enter more challenging levels. The game offers level-up incentives, like opening new balls and backgrounds. Do this by getting diamonds which you can later use to buy all kinds of items or by opening boxes that will appear when you manage to collect 3 keys.
